SUMMARY

Consumer Insights and Analytics professional (M.S. Business Analytics, Boston University Questrom) with 5+ years across consumer research, marketing analytics, and AI-driven business intelligence. Builds the full stack end to end: SQL and Python data engineering, machine learning (ML) and causal inference, Tableau and Power BI storytelling, then turns it into recommendations executives act on. Authorized to work in the US for four-plus years without employer visa action.

EXPERIENCE

Business Analyst, Blue Horse Digital, New York, NY

Apr 2026 - Present

- Architected end-to-end GA4 and Google Tag Manager (GTM) analytics stack for agency clients, unifying GA4, Search Console, and Business Profile data into Looker Studio KPI dashboards reported directly to the CEO
- Automated an LLM visibility and agentic AI content pipeline, cutting manual reporting time and surfacing high-intent local SEO opportunities across client accounts

IT / Business Analyst, SR Soft, Houston, TX

Mar 2026 - Apr 2026

- Delivered business process analysis and KPI dashboards across pharma, manufacturing, healthcare, and retail clients, translating Workday, Oracle, and SAP workflows into analytics governance frameworks

Data Analyst, Newdia Co., Boston, MA

Jan 2025 - Dec 2025

- Engineered Newdia's first analytics function from zero: a CAC funnel and behavioral churn model (XGBoost, AUC 0.86) that rerouted 40% of a \$1.2M promotions budget toward the highest-ROAS channel
- Diagnosed a 30% promo cannibalization signal apart from seasonal demand using causal inference (difference-in-differences plus synthetic control), then shipped AWS QuickSight dashboards for weekly executive reporting

Co-Founder and Analytics Lead, Count On Me (COM) Marketing, Hyderabad, India

May 2023 - Aug 2024

A growth marketing consultancy scaling premium retail, B2B, and hospitality brands

- Co-founded a consumer insights and marketing analytics practice serving 25+ clients, building GA4 and multi-touch attribution pipelines that drove a 35% average engagement lift
- Led market research and audience segmentation (SQL, Python, SAS) for 20+ brands, translating findings into go-to-market (GTM) and retention strategy

Marketing and Business Development Executive, Sumedha IT, Hyderabad, India

Jul 2020 - May 2023

An advanced deep-tech hub empowering the global silicon landscape

- Directed SQL-to-Tableau consumer insights and segmentation dashboards governing \$1.2M+ in marketing spend, informing go-to-market decisions that contributed to Sumedha's 2022 acquisition by CYIENT

PROJECTS & VENTURES

- Starbucks Choice Overload, BU MSBA (Prof. Fradkin): Designed a factorial A/B experiment across 3.2M+ loyalty records; a difference-in-differences design isolated a 14% retention lift hidden inside one masked cohort ($p < 0.01$)
- RAT Lab: Built a research tool that runs LLM personas as synthetic respondent cohorts, returning p-values, effect sizes, and confidence intervals in hours instead of weeks of live panels
- Consumer Insights Client Research, Newdia Fenway (BU Practicum): Ran mixed-method qualitative and quantitative research for a live CPG client, building segmentation and a full conversion-funnel audit
